

VOL. 45 NO. 40

IRMA, ALBERTA, FRIDAY, MAY 16th, 1956

SUBSCRIPTION: \$2.00 PER YEAR; \$2.50 U.S. AND FOREIGN

## ATTENTION PARENTS!

Quite a number of Irma youngsters are using a slough on the A. E. Knudson farm as a swimming hole this spring.

Mr. and Mrs. Knudson do not mind the children coming to swim but they are deeply concerned because the slough is quite deep and because quite a few small children come as well as bigger boys.

Mr. and Mrs. Knudson say that the children are welcome to swim there but that they themselves cannot be held responsible. They would appreciate it if the parents would look into this and if possible provide adult supervision.

The Athabasca oil sands rate as the largest reserve of oil known to man. The formation was recorded in 1789 by explorer-trader Peter Pond.

## CHURCH SERVICES

**SHARON LUTHERAN**  
Sunday, May 18th  
Sunday School and Bible Class  
—10 a.m.  
Divine Worship—11 a.m.  
C. Magee, Pastor.

**UNITED CHURCH**  
Sunday, May 18th  
Sunday School and Worship Service—10 a.m.

**ALBERT:**  
Sunday School and Worship Service—10 a.m.  
**IRMA:**  
Sunday School—10:30 a.m.  
Worship Service—11:30 a.m.  
The Sacrament of Baptism will be administered at the morning service.  
Family Night Service—8 p.m.

Will all our members kindly bring in their thank offering boxes so that the contents can be placed on the offertory plate at the Deacony Meeting which is to be held in Wainwright on Monday, May 26th. Thank you.

## Weekly Inspirational Corner

(Sponsored by an Irma Times reader)

And you hath He quickened, who were dead in trespasses and sins;

Wherein in time past ye walked according to the course of this world, according to the prince of the power of the air, the spirit that now worketh in the children of disobedience:

Among whom also we all had our conversation in times past in the lusts of our flesh, fulfilling the desires of the flesh and of the mind; and were by nature the children of wrath, even as others.

But God, who is rich in mercy, for His great love wherewith He loved us,

Even when we were dead in sin, hath quickened us together with Christ, (by grace ye are saved)

And hath raised us up together, and made us sit together in heavenly places in Christ Jesus.

—Eph. 2:1-4

## NORTH EAST CORNER

We were sorry to hear that Mrs. Frank Ford Sr. is a patient in the Wainwright hospital. Hope you are soon feeling better and able to be home again, Pearl.

Rudy Mikkelsen is busy in the district digging basements at Younker Bros. and Nemo's, and leveling down around Cook's and Lawson's new houses.

Mr. and Mrs. Richard Scheik of Drayton Valley spent several days last week with Annie's father, Mr. Frank Ford Sr. While here, Richard did some combining on his farm. The Scheik's had their new son, Teddy (born March 23) and little daughter with them.

Mr. and Mrs. Ambrose Firkus are spending a few days at the home of their son Clifford.

Milt Younker has made several trips to the city this week with cattle.

The cold or flu bug still seems to be with us. Linda Haugen has been on the sick list for quite a while, and Doris Firkus for a shorter period. Hope both girls are soon back to normal.

**Government of the Province of Alberta**  
**PUBLIC SALE OF LANDS**  
Under the Tax Recovery Act, R.S.A. 1955

Lot 1 Block 5 5621AL

**Sub-division of Wainwright**  
**Central Park** Plan 16, 17 Block 27 1156AE

**V.L.A.—Central Park** Plan 2 Block 3 5088FW

Each parcel will be offered for sale subject to the approval of the Minister of Municipal Affairs, and subject to a reserve bid and to the reservations and conditions contained in the existing certificates of title.

**Terms:** Cash.

Redemption may be effected by payment of all arrears of taxes and costs at any time prior to the sale.

Dated at Wainwright, Alberta, this 18th day of March, 1956.

CHAS. WILBERHAM,

Secretary-Treasurer.

my16-jnc

Last great Indian battle fought in Canada was between the Blackfoot and the Cree in 1870, near the present site of Lethbridge.

## WITH THE District Agriculturist

By J. S. Duncan

**Pasture for Pigs**

All pigs will do better and be healthier if they are allowed plenty of pasture space. This is particularly true of brood sows. Alfalfa makes the best pasture but a mixture of oats, barley and fall rye is quite satisfactory. Pastures should be large enough to allow them to be used alternately in order to prevent disease. Each brood sow should have one quarter to one third of an acre. Another important factor is to have an adequate water supply available to the pigs on pasture.

**Watch for Swine Erysipelas**

This disease has caused trouble for a lot of hog raisers the last year or two. There were outbreaks on 10,000 farms in 1957. Usually this disease hits pigs over 80 pounds in weight and usually it hits quite suddenly. High fever, lack of appetite and stiffness or prostration are symptoms. Another type of the disease which may affect younger pigs shows up as enlarged joints, arthritis and crippling. It is important to see the pigs regularly in order to see the first signs of trouble. Affected pigs can be treated with penicillin, pigs exposed to the disease should be given erysipelas anti-serum to prevent a large outbreak. The use of erysipelas bacterins or vaccines gives good resistance and is justified during the warm weather.

**Seed Forage Crops Now**

Spring is the best time to seed forage crops in this country and mid-summer is the worst. So don't delay too long. A firm, moist seed bed with the seed kept as close as possible to the surface is the best guarantee of a good catch. One half inch from the surface is the best depth for most forage seeds. Broadcast seed to inoculate all clover and alfalfa seed before planting. If you are using a nurse crop, use one that will be taken off early such as green feed or early barley.

## Ten Held in Honor Of Mrs. V. Hutchinson

A tea was held at the home of Mrs. B. C. McLean on Tuesday afternoon when members of the Afternoon Group of the W.A. gathered to honor Mrs. V. Hutchinson who is leaving Irma to visit her sister on the West Coast.

Mrs. Hutchinson and her old friends had a very pleasant afternoon together. Mrs. J. C. McLean, on behalf of the group, presented Mrs. Hutchinson with a handsome travelling clock.

Mrs. Hutchinson is leaving Irma on Thursday for Vancouver but her many friends here are looking forward to her return later in the summer.

## EASTERLY ECHOES

Mrs. E. Fenton was in the city Saturday to visit her father, Mr. H. Miskimins, who has been a patient in the Royal Alex. hospital for the past month.

Mrs. Stuart Fenton and her son, "Robert Allan," came home from hospital Saturday.

Mr. and Mrs. Joe Orzechski were visiting at Mr. and Mrs. F. Wyand's at the weekend.

Mr. and Mrs. Bill Veer, Darlene and Greg were Edmonton visitors Thursday.

We notice some of the Saskatoon bushes bursting into bloom.

Another of our former Irma boys, Donald Morse has arrived at the mine north of Yellowknife. He and Harold Dootson are looking forward to some hunting and fishing now that the snow is melting up there.

Bill Veer has added boat building to his other accomplishments.

## NOTICE

Beginning May 26th, I will be closed on Mondays and will remain open all day Wednesdays.

—Aron Beauty Parlor, Irma.

9-23c

Jasper National Park is the largest in Canada with an area of 4,200 square miles.

**W.A. EXECUTIVE.** Shown above are some of the members of the executive of the Alberta Conference of United Church Women's Association elected at the eighth annual meeting in Red Deer recently. Front row, left to right, Mrs. Martin Enger, Irma, conference president and Mrs. D. K. McElroy, Edmonton, vice-president. Back row, left to right, Mrs. R. F. Berry, Calgary, WMS branch president; Mrs. G. D. Young, Taber, executive member; and Mrs. Russel Clark, Calgary, executive member.

## United Church W.A. Conference Closes at Red Deer

More than 75 women attended the three day sessions of the 8th annual conference of the Alberta conference Women's Association of the United Church of Canada that closed Thursday noon in Gaetz Memorial United Church, Red Deer.

The new executive elected on Thursday morning are: Honorary Presidents, Mrs. O. W. Thorne, Red Deer, and Mrs. Ernest Cordett, Calgary; Past President, Mrs. T. M. Dyer, Edmonton; President, Mrs. Martin Enger, Irma; Vice-Presidents, Mrs. W. D. Mair, Calgary; Mrs. D. K. McElroy, Edmonton; Mrs. J. Farnalls, Halkirk; Mrs. A. G. Little, Beaverlodge; Mrs. J. N. Martin, Lacombe, and Mrs. M. J. Perry, Medicine Hat; Recording Secretary, Mrs. J. M. Edworthy, Hardisty; Corresponding Secretary, Mrs. J. C. McLean, Irma; Treasurer, Mrs. N. A. Headrick, Vegreville; WMS representative, Mrs. R. P. Berry, Calgary; Christian Citizenship, Mrs. R. Clark, Calgary; Christian Education, Mrs. M. Fowler, Sexsmith; Visiting and Christian Fellowship, Mrs. R. S. Mellett, Westlock; Leadership Training, Mrs. G. Young, Taber; Literature, Mrs. R. Norem, Edmonton.

The conference next year will be held in Edmonton.

Mrs. Martin Enger, Irma conference president, was chairman for the sessions, and the recording secretary was Mrs. C. M. Shillinglaw, of Forestburg, Ont.

Other officers were Mrs. J. C. McLean, corresponding secretary, and Mrs. W. A. Headrick, Vegreville, treasurer.

Delegates to the conference represented nine Presbyteries that have a total of 524 WA groups with a membership of 13,150 women. During 1957 the conference raised \$358,940.02. This money was used for the local churches and parsonages, Sunday School, vocation Bible school, youth work, missionary and maintenance fund, WMS, and relief work in local and overseas areas.

Wednesday evening a banquet was held. Rev. J. Gardner, Edmonton, spoke on the rehabilitation centre. Greetings were brought by Mrs. C. S. Mortimer, president of Gaetz Memorial United Church WA; Rev. W. P. Irving, minister of the church; Mrs. R. P. Berry, Alberta WMS; and Rev. C. R. McMurty, Presbytery.

Rev. W. P. Irving addressed the conference later that evening. Communion service was held in the church that evening for the delegates.

Presbytery WA summit panel discussion took place Wednesday afternoon. Taking part in it were Mrs. Russel Clark and Mrs. J. Mayell, of Calgary; Mrs. N. J. Mosel, Coronation; Mrs. H. S. Corkish, Drumheller; Mrs. C. G. Fargey, Edmonton; Mrs. T. L. Sandeman, High River; Mrs. A. G. Little, Peace River; Mrs. R. Donaghy, Red Deer; Mrs. G. D. Young, South Alberta; and Mrs. Lillian Graham, St. Paul's United.

Mrs. Enger, conference president, spoke to the delegates on Tuesday afternoon. The address of welcome was given by Mrs. R. Donaghy, Ponoka, and Mrs. Lillian Graham, of Lloydminster, replied.

A large number of reports by the conveners of various com-

mittees were received during the conference. Devotional services were held at the opening of each session, and they were conducted by members of the different Presbyteries.

Honorary presidents of the conference were Mrs. O. W. Thorne, Red Deer, and Mrs. Ernest Corbett, Calgary. Mrs. J. A. Jarvis, Red Deer, was billposting officer.

**Northern Nuggets**

A cordial welcome to our new teacher, Miss Van Heffle. We hope that her stay among us will be a long and happy one.

On Sunday evening during a short thunderstorm, a power pole was struck north of the school. Monday morning the power was off for 2 hours while necessary repairs were made. A number of ladies felt a deep sense of frustration over their delayed washing but Mrs. John Basse had a real headache with 100 baby turkeys on such a cold day.

Mr. Prior is a patient in the Mannville hospital. We hope he will soon be home again.

Another member of our community, little Gerald Allen, was taken to the hospital last Monday suffering from shock and cuts to the face, which he was badly bitten by a dog. We do hope the little lad will not be permanently marked by this unfortunate encounter.

Mrs. Beaugarde of Vernon, B.C., enjoyed a long weekend here at the home of her daughter, Mrs. Robin Johnson.

Mrs. C. Shippy of Edison is spending two weeks here visiting at the home of her daughter, Mrs. Lynn Hunter and also at the home of her son, Vance.

Mr. Clark Jackson of Kamloops, B.C., arrived on Tuesday to visit his niece, Mrs. Robin Johnson.

Born to Mr. and Mrs. F. Beck (the former Mary Keilar) of Connecticut, N.Y., on May 3rd, a daughter.

Born to Dr. and Mrs. Louis Montanier, the former Genevieve Mayeur, at the General Hospital, Edmonton, on May 11, a daughter Margaret Elizabeth Claire, weight 4 lbs., a sister for Michel.

Mr. and Mrs. Douglas Gray, the former Eleanor Meyer and small daughter are leaving for Scotland where he will be teaching.

**OPTOMETRIST**

D. A. Mathieson, R.O., 205 Bina Building, Edmonton, Alberta will be in Irma at the Hotel on Monday, May 26 at 2:30 p.m. For appointments see Mrs. Lang at the Drug Store.

## What is the value of a strong Chamber of Commerce unit?

What is a Chamber of Commerce? A group of businessmen devoted to prove that the sun shines all the time in our municipality? Public spirited citizens banded together to see that the town enjoys the highest possible standard of living? Supporters of free enterprise and freedom vigorously opposing collectivism and socialism? Businessmen trying to bring new industry and more tourists to this area? These are some of the most commonly held ideas about the Chamber of Commerce. Whatever is said about the Chamber, there is one thing sure—it is one of our most important organizations. With the church and the municipal government, the Chamber forms a strong pillar supporting the welfare and the progress of the community.

The work of the local Chamber of Commerce touches nearly every citizen. It is responsible for tourist promotion. It undertakes the work of an industrial commissioner, seeking new industry for

the town and district. It takes a leading part in community affairs, improving relations between the farmers and the businessmen, sparking community interest in education, taking an interest in fire prevention and health and safety work, organizing Santa Claus parades at Christmas, and a host of similar projects.

### Provincial and national matters too

The interest of the Chamber of Commerce is not, however, confined only to local matters. Just as the citizen of a municipality is also a citizen of his province and of his country, so the Chamber of Commerce has provincial and federal interests in addition to its local activities. At the provincial level the activity of the Chamber of Commerce is co-ordinated and presented to the provincial government through the provincial Chamber—a provincial federation of Boards of Trade and Chambers of Commerce.

At the federal level, the activity of the Chamber of Commerce is co-ordinated and presented to the federal government through the Canadian Chamber of Commerce—the national federation of more than 750 Boards of Trade and Chambers of Commerce of which Swift Current is one. The policy of this national group is determined by the majority votes of the member boards and chambers, each of which has one vote of equal strength.

The national Chamber undertakes public relations programs to explain the virtues of the private enterprise system. Similar programs are often undertaken by the local Boards and Chambers. Many of them have produced booklets and undertaken other publicity projects to bring to the attention of their fellow-citizens the case for private initiative and a traditional Canadian way of life.

### A stabilizing influence

An organization of this kind is a stabilizing influence on a community. It is instrumental in focusing greater attention on municipal, provincial and national affairs. It brings about greater understanding among various segments of the community and it makes the community a better place in which to live. The Chamber of Commerce deserves the support and understanding of all the citizens in the community. Every city, town and even village should have a strong and lively Chamber of Commerce if it is to make the most of its potentials and if community life is going to be as pleasant as possible.

The same applies to the national scene. Canada needs a strong national group to speak on behalf of business generally, it has such a voice in The Canadian Chamber of Commerce. Canada has a great future and the cities and towns of Canada are going to share in it in proportion to the effort and intelligence they individually put forth. The Chamber of Commerce (Boards of Trade) is a chief means for employing this effort and this intelligence. For that reason, it deserves your support!—The Sun, Swift Current, Sask.

### SUPPORT LOCAL MERCHANTS

## Slim and smart PRINTED PATTERN

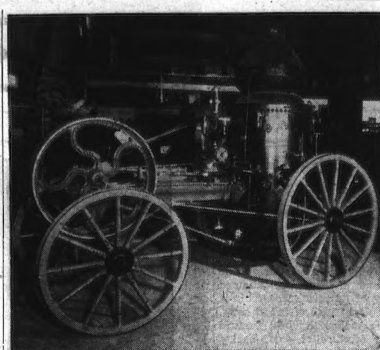

by Anne Adams

This Printed Pattern is a wonderfully becoming style for half-size figures! Simple dress to wear for summer; cover with the little bolero. Proportioned to fit, neat, smart, alluring!

Printed directions on each pattern part. Easier, accurate.

Send fifty cents (50c) in coin (stamps cannot be accepted) for this pattern. Please print plainly: Size, Name, Address, Style No., Anne Adams Pattern Dept., Department P.P.L., 60 Front Street, W., Toronto.

## Old steam engine ready for action again

A portable steam engine built about 1875 is the latest exhibit restored in the busy repair shop at the Western Development Museum in Saskatoon.

The wagon-mounted engine, known in its day as the only fireproof steam power unit for farm use, will be on display at Pioneer, June 30 to July 5. For those who remember it, the full name of the machine is the Watrous Champion portable steam engine. It was built at Brantford, Ont. There is only one other like it in Canada and one in the United States.

## Swift Current may be established highway communication centre

J. T. Collier, district engineer with the department of highways in Swift Current, said that possibly 13 or 14 units of a new two-way radio communication system may be installed in this district before next winter, in an effort to increase the operating efficiency of the maintenance branch.

He said that if the units were installed, Swift Current would be the base station, with communication considerably simplified between the office and the various road maintenance equipment.

In the winter, Mr. Collier said, radio units would be installed on

snowplows. In summer they would be used on motor-graders and trucks.

The new innovation would also be employed in automotive vehicles used by the engineer, assistant engineer, and maintenance foreman.—The Sun, Swift Current, Sask.

## Want better Prov. road maps

Delegates at the annual meeting of the Saskatchewan Chamber of Mines requested that the Department of Travel and Information publish maps showing the entire province rather than the present road maps which only go as far north as La Ronge, thus leaving out almost half of the total area of the province.

Delegates referred to the fact that the most commonly used maps today were the road maps issued by the Tourist Branch of the oil companies, and that by leaving off a large section of the northern portion of the province it created a wrong impression of the extent of the northern areas.

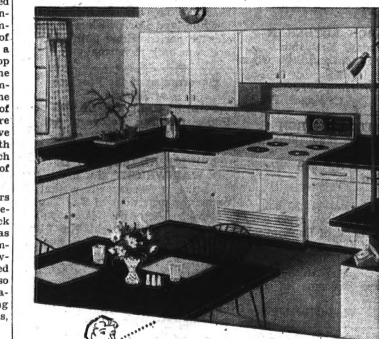

Even residents of our own province have little idea of the potential mineral area of our north or the location of Uranium City, because the only maps they ever saw were the road maps, stated one delegate at the meeting.—Saskatchewan Mining News.

## Library seeks books

The Unity Community Library has made an appeal for donations of adult books in good condition. It will be greatly appreciated if anyone could spare a few books from their shelves at home that are not being read, that they may be shared with a greater number of people. The contribution of a good dictionary would be more than appreciated.

The last children's Story Hour of the season will be held on Saturday, May 10, and will be resumed again in September. A film will be shown for the last Story Hour.

The Library will be open on Saturday nights from May 10, at 7:00 p.m. to 9:30 and continue throughout the summer months.—The Herald, Unity, Sask.

A recreation room, University Hospital. More than \$28,000,000 is spent annually in Canada to provide care and treatment for the mentally ill, but less than 1% of that amount is spent on research. The Saskatchewan psychiatric research program in the University Hospital and the two mental hospitals in North Battleford and Weyburn, is studying many aspects of mental illness, using the various tools of chemistry, psychiatry and sociology. For example, relationships between patients and staff may be a therapeutic and research tool.

## Geographic's

## Map shows new Argentina

Argentine map makers have wiped Juan D. Peron off the face of their country.

Since the overthrow of the dictator in 1955, almost a thousand place names have been changed in the nation he ruled. Scores involving "Peron" were dropped. Eva Peron Province, named after his wife, has become La Pampa. Presidente Peron Province is now Chaco.

The elimination of Peron from his country's geography is shown on a new map of southern South America issued by the National Geographic Society as a supplement to the March issue of its magazine.

The map, second in the Society's program that will culminate in a new atlas of the world, shows many other changes in the burgeoning countries of the south. Ushuaia, Argentina, for example, has had to give up its title as the world's southernmost town. A settlement called Puerto Williams has grown up around a new Chilean naval base on Navarino Island south of Tierra del Fuego. Some 350 persons live there, 28 miles from Ushuaia, and 680 miles from Antarctica.

Height and depth estimates have also changed. Mount Aconcagua, in western Argentina, surpasses North America's champion,

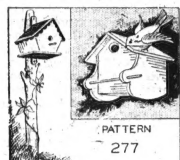

## Winkler cannery bean cannery

Vegetable growers in the Winkler area will be the sole suppliers of navy beans to the Winnipeg and Manitoba market this year. This announcement was made at a special grower meeting of the Co-op Prairie Cannery Ltd. at the Winkler School last auditorium.

The growers were told that the Co-op Cannery had entered into a contract with a large Winnipeg Wholesale organization to supply all the beans they required for the next year. The contract was negotiated with the assistance of provincial government officials. Under the contract all the beans would be harvested, cleaned and picked by the Co-op Cannery. Special equipment which is required for the picking and cleaning in the plant has been purchased by the provincial government and will be installed in the plant as soon as the equipment has been cleared by the Canadian Customs Department. The equipment was purchased by the government at Crookston, Minnesota.—The Winkler Progress.

## Try my wonderful GLAZED PEACH PINWHEEL PUDDING!

Cut in finely.  
1/2 c. sifted shortening  
Arrange patches over dough. Beginning at a short edge, roll up, cut into 6 slices. Place, cut side up, in greased 7 x 11 inch pan. Bake in hot oven, 400°, 25 min. Meanwhile, bring to boil, stirring, 1 tsp. granulated sugar, 1 tsp. corn starch, few grains salt, 1/2 cup. lemon juice, 1/2 cup. apricot preserves, if necessary, to bring measure up to 1 c. Set in 1 tsp. butter or margarine and 1/4 tsp. almond extract

Four over partially cooked pinwheel. Bake about 20 min. longer. Yield—6 servings.  
Protect all your ingredients with dependable MAGIC! Get light and tender results... get MAGIC Baking Powder soon!

(The Sun, Grenfell, Sask., April 30, 1958)

**BIG PIPE**—Anyone wanting a picture from this spot is advised to get it early—for soon it will be the exact centre of Grenfell's new sewage lagoon. Taken last week it shows a dragline at work in the lagoon area on the McKenzie farm. At left pressure pipe heads uphill towards town. Topsoil from the lagoon is being used to fill low and eroded spots in the field.

## The pipe line under construction

Picture Butte has become a teeming trailer town, since it has been chosen as the headquarters for the contracting companies and working crews of the gas pipe line that is being laid from the Pincher Creek gas field to Pincher, close to the Saskatchewan border, a distance of 144 miles.—The Lettbridge Northern News.

## Week's sew-thrifty PRINTED PATTERN

Sew two pretty versions of this graceful dress. Choose a low-neckline for summer; the high neck with sleeves for year 'round. Sewing is so very easy with our Printed Pattern.  
Printed Pattern 4620: Misses' Sizes 14, 16, 18, 20; 40, 42, 44, 46, 48. Size 16 requires 3 1/2 yards 36-inch fabric.  
Printed directions on each pattern part. Easy, accurate.  
Send fifty cents (50c) in coins (stamps cannot be accepted) for this pattern. Please print plainly Size, Name Address, Style No., to Anne Adams Pattern Dept., Department P.E.L., 60 Front Street W., Toronto.

**BIG WHEELS**—Grenfell mayor E. R. Neely gets the feel of the controls as he sits high up on an earth scraper now working on the town's new utilities project. The big scrapers are very mobile and can ramble along at speeds up to 30 m.p.h.

## Big water and sewer pipes aimed at town

The long-awaited time has come! Earth is being moved to make way for water and sewer lines which will serve Grenfell people in their houses and places of business.  
Last week the ditchers, draglines, scrapers and "cats" of the contractors bit into local earth in the first mechanical step of the big operation.  
Like a military pincer movement, the plan is being worked from extremities towards the middle. On the Ernie Welch farm, where the water pipe gets its start, a trenching machine was cutting 13 feet into the ground

and heading for town. Head man on the job, Neil Deagle informed the press that the machine can progress from 600-800 feet each day. Ten-inch pressure pipe is being laid behind the machine as it moves on.  
Sewer pipe is being laid from the lagoon area towards town, with a dragline starting the work. At the same time big scrapers are peeling off the topsoil preparatory to building the walls of the lagoon which will act as the reservoir where sewage will be purified by natural action.  
More equipment for the job arrived on flatcars over the weekend.

## FIRE HAZARDS

Ignorance and disregard of fire hazards in the annual spring home clean-up, car tune-up pursuits of Albertans are responsible for a high percentage of fire losses, injuries and fatalities, states Austin E. Bridges, Provincial Fire Commissioner.

The highest monthly property loss from fire in Alberta is that recorded for April of 1955. In other recent years the month of May has run a close second.

Few car hobbyists and home handymen, says Mr. Bridges, are aware that gas being drained from a car tank into an open container can ignite from static electricity, and that various paints and thinners give off vapors readily ignited by even a spark. Yet these two are common factors in Alberta's annual spring fire toll.

Mr. Bridges cautions that car tanks should be drained outdoors rather than inside a building. Gas should be drained only into a safety container, one with a small opening and placed directly next to the tank outlet. Mixing of paints and thinners is safest in a room where there is no open flame and no spark. Hazards also can be reduced by destroying painting rags each day. Under certain conditions, rags soaked with oil paint thinners can ignite spontaneously within 12 hours after being put away.

Each spring there are reports of people being severely burned when grass fire and farm stubble fires race out of control. Many of these cases are attributable to careless burning of dead grass and refuse accumulations. Most municipal fire departments permit and proper safeguards for burning trash outdoors. If such burning must be done, it is best to pick a spot well away from house and garage, with a strip of black earth cleared around pile to be burned. This advice applies also to wire mesh metal trash burners. A few pails of water and a rake or wet broom should be kept handy. After the fire dies down, embers should be well soaked in water, then stirred to make sure no seemingly dead embers remain which could be fanned into sparks by a gust of wind.

## Cancer top child menace

Cancer has become the greatest menace among diseases to the lives of children, says a Seattle pediatrician.

It is second only to accidents among all causes of death to children.

The pediatrician, Dr. Alexander Bill, here to attend the North Pacific Pediatric Society's spring meeting, said in an interview.

"Cancer has replaced diseases like diphtheria and diarrhoea which we can now cure but were fatal to children several years ago."

Radiation from fallout and X-rays possibly has contributed to the increase in cancer "but it's also because freedom from other diseases gives cancer a chance to develop."

## Local Safety Council formed

Due to the interest of Hanna business men, members of the Home and School Association and other individuals, Hanna will soon have a local safety council. Basically the functions of such council center around the safety of home and playgrounds, but there are other phases such as safety on the farm which enter into the plans of the organization.—The Herald, Hanna, Alta.

## Don't Neglect Slipping FALSE TEETH

Do false teeth drop, wiggle, or wobble when you talk, eat, laugh or sneeze? Don't let them! They are held in place by such hand-applied FASTFITE, an alkaline tooth-paste powder to spread on your teeth. Give conditions comfort. Be sure firmly set. Gives confidence feeling of security and added comfort. No gummy, gummy, messy taste or factitious. Get FASTFITE today at any drug counter.

**YOU CAN SLEEP TO-NIGHT**  
AND RELIEVE NERVOUSNESS  
**SEDICIN**  
TO-NIGHT  
To use happy and tranquil sleep of nervous or for a good night's sleep, take Sedicin tablets according to directions.  
\$1.00—\$4.95  
Dose: One Only

## BACKACHE May be Warning

Backache is often caused by lary kidney action. When kidneys get out of order, excess acids and wastes remain in the system. The backache, dull, aching, or that tired-out and heavy-headed feeling may come. That's the time to take Dodd's Kidney Pills. They clean out the kidneys to normal action. They stop the lary kidney action. Get Dodd's Kidney Pills now.

## News Report From Edmonton

EDMONTON—The recent session of the Legislature ended with the Alberta political picture in its most mixed-up state in years.

It ended with the prospect of only one more session before a general election. The vote will almost certainly be held next year—probably in the summertime—unless Premier Manning decides to remain in office for the full five-year term.

Recent developments must be making it tough for him to decide just what is the best course of action. For example, the overwhelming success of the Progressive Conservatives on March 31 leaves room for plenty of speculation on what can be expected in the next provincial vote. So far, there's no sign of a definite trend.

Will the Tories be able to extend their federal success in the provincial field? Some observers say yes, while others say no. History would appear to be on the side of those who say no. Over the years in Canada, the party in power has tended to fade out provincially. The shortage of Liberal provincial governments after the long Liberal hold on Ottawa seems to bear that out.

If Alberta and the rest of the country run true to form, it would appear unlikely that the Conservatives will start toppling provincial governments right and left.

What of the Tory chances in Alberta? With a strong provincial organization, which they lack at present, they could gain some seats. At the moment they're looking for a leader, and with a good man in the state they could improve their position. Party bigwigs are talking about the possibility of Agriculture Minister Douglas Harkness leaving the federal field to take over the provincial leadership. That would almost certainly add at least one seat to the three they now hold. Art Smith, Calgary, who quit the Legislature to run federally, also has been mentioned.

There's another factor which could work against the Tories. Many Albertans were a bit startled to see the huge Tory majority which resulted from the March 31 vote. They were even more startled to see Alberta swing entirely over to the Tories. This could result in a reaction against Conservatism provincially.

The final factor is the performance of the Conservatives in Ottawa. The big unanswered question is whether John Diefenbaker will be as popular a year from now as he was on March 31.

If you regard a Conservative upset as unlikely in Alberta, it leaves the Social Credit and Liberal parties to fight for the spoils.

As for Social Credit, there is no sign of widespread dissatisfaction with the Manning administration. On the other hand, things such as municipal unrest over provincial aid could be a factor. The premier's admission that natural gas prices are bound to increase could be used as a weapon by the Opposition parties.

A major question that only an election will answer is the real public attitude toward the oil and gas dividend program. Opposition politicians are convinced the majority of Albertans regard the giveaway program as a mistake. If this is true, it could lose votes for Social Credit instead of gain votes.

As for the Liberals, they think they have a good chance of toppling Social Credit this time around.

If the federal swing from Liberalism to Conservatism was the result of people just being plain tired of the same old names in public life, then the Liberals might cash in on the same public feeling provincially.

High-ranking Liberals feel they will need a new, powerful leader to pull it off for them. The popular choice right now is Edmonton's Mayor William Hawrelak. Some say the job is his if he decides to take it.

Hawrelak should go over well with city voters, but at the same time he has a pioneer farming background which could put him in good with the rural voters.

With 15 members—many of them exceptionally good men—already in the provincial House, the Liberals are the only party in a position to offer an alternative. Whether they can swing it is anyone's guess.

## Kinsella News

Congratulations to Mr. and Mrs. Lowell Pedersen of Westlock on the birth of a daughter, a grand daughter for Mr. and Mrs. Leif Pedersen.

Mr. and Mrs. S. Phoenix of Sturgis, Sask., were recent visitors at the home of Mr. and Mrs. W. Greenwood.

Miss Violet Nelson of Manitou, Man., is spending her holidays at the home of her mother, Mrs. J. Stenson.

Marlene Oakes celebrated her 8th birthday anniversary by entertaining her young friends at a birthday party.

Miss Patricia Carpenter, who is on a month's holiday, spent a few days at her home here. She is now visiting at the home of her brother and sister-in-law, Mr. and Mrs. B. Carpenter of Brantford, Ont.

Mrs. R. Stevens spent the weekend with her son and daughter-in-law, Mr. and Mrs. J. Stevens of Sedgewick.

Mrs. G. Hintz and daughter Madeline of Edmonton, were visiting the home of Mr. and Mrs. Louis Pedersen during the weekend.

Mr. and Mrs. H. Barber and family of Irma, were Sunday visitors at the home of Mrs. J. Stevens.

The Kinsella Elks are going ahead with plans for their annual Kiddies' Day to be held on June 1, on the J. F. Murray Ranch. 8 Little League Baseball teams are entered so far and the children will get their usual free treats and there will be lots of fun for all.

If the wind starts in the south, some of the old ninnoms of Kinsella are packing up their fishing kits for the coming weekend. So let's be ready for some tall fish tales.

## Jarrow News

Those visiting with relatives in Edmonton over the weekend included:

Mr. and Mrs. J. Muller; Mr. and Mrs. Ambrose Firkus with Mr. and Mrs. Budzinski; Mr. and Mrs. Bill Meakins, Shirleyanne and Mr. and Mrs. Leo Mark.

Mr. Casper and Mr. Buster Lingley were in the city a day last week.

Bob Raymond (student minister for Jarrow United Church) arrived last Thursday from Ontario to take over his summer charge.

Mr. and Mrs. Harold Whidden left for Jarrow Sunday at the Tobie Smith home.

Mr. and Mrs. G. Theroux of Irma; Miss Pat Matthew; Mr. and Mrs. C. Soneff accompanied by Mr. and Mrs. Wilmar McElroy of Provost attended the christening of Gwyneth Irene Astley at Minburn United church last Sunday.

Mr. Raymond conducted his last service at Jarrow on Sunday morning. A due by Stella Bridgman and Gloria Mathew, the story by Shirley Anne Meakins, and the lovely flowers brought by Mrs. Wright and Mrs. Beaton added to the inspiring Mother's Day service.

Mr. Gilbert Lovig is home after being a patient in Viking hospital last week.

Mrs. Francis Meakins and Bonnie are in Calgary where Bonnie is receiving further medical treatment.

## Echo - Rodino

Miss Shirley Nash of Viking and her fiancé, Lou Ducon of Penhold Air Force Base were weekend visitors at the Nash residence.

Congratulations to Mr. and Mrs. Phil Holt on the birth of a son, a 9 lb. 3 oz. brother for Billy and Gordon.

Mrs. S. E. Davies is keeping the Holt residence in order while Mrs. Holt is hospitalized.

Camella Martin laid up at home with the mumps.

Mr. and Mrs. Leo Shomachuk (the former Irma Jackson) are proud parents of a baby girl born April 20th at Red Deer.

Little Lark Hollar is again laid up in Viking hospital.

Miss Bobbie Anne Kirkman of Irma spent the weekend with Tannis Beckett.

A small pocket of farmers are belatedly getting their cattle T.B. tested this week. This should make a T.B. free area at last.

## The LETTER BOX

May 6, 1958.

Dear Mrs. Riley: I am writing on behalf of the Northern Alberta Sport Car Club. We would like to thank the people of Irma and District for co-operating with the Club. On our half-way stop-over, our gas tanks and stomachs had to be filled on May 4 from 10 a.m. to 1 p.m.

I thought maybe you would like to know who was the Rally. First Prize: The Standard Motors Trophy went to Car No. 7, Driver D. Friedman, Navigator, K. Finnigan.

Second was Car No. 3, Driver F. Frederickson, Navigator C. Rowe.

Third was Car No. 10, Driver G. Deane, Navigator N. Deane.

So until the next time our Club comes your way.

C. R. Lison, Vice-Pres.

May 2nd, 1958

Dear Sir: In order to create a little more interest in football throughout the province, I would appreciate very much if I might have a little space in your local newspaper.

Football (or softball as it was called a few years ago) is a great game, and a great sport, and not too expensive to operate.

Football has developed a great deal in the country since it was first played here. Especially in the past few years, especially in the Prairie and Camrose. It can be the largest city or the smallest village and still have a winning ball team, for instance Spruce Grove has had two Provincial Championship teams three years in a row, Intermediate "B" men and Junior boys.

In the larger cities there are organizations to organize teams and leagues, but in the smaller towns and country points they are not aware as to how to get all the information needed.

I do feel that there are a lot of small towns that have good ball teams and capable of entering Provincial playoffs but just do not know how to go about it, so here is how it works.

All teams in country points are classed as Intermediate "B" men or ladies and Juniors if 20 years of age or under by June 1. All players must reside in the town, district, or municipality of their home diamond. The closing date for entries is June 1st, and all players must be registered by June 30th.

The entry fee is Juniors \$10.00, Intermediates \$15.00, and Seniors \$20.00.

Playoffs are set up as soon as all team entries are in, and the playoffs are usually on the weekend unless otherwise desired. All information as to playoffs will be forwarded as soon as the draws are made.

In the far north and the north (of Red Deer) you can contact the Northern District Organizer, Paul Smith at 10467-144 St. or myself, President of the A.F.A. at 101 Condon Blvd.

In the central (south of Red Deer and including Red Deer) the District Organizer is Dave Luft, 441-34 Ave. N.W. Calgary, and the South, Mike Kaleta, 321-15 St. N. Lethbridge.

The local newspaper seems to be the only way in which we can get to all the country points and I do hope the Alberta Football Association will get the support of your paper in their effort to promote amateur sport and football in the Province.

Sincerely, (Mrs.) Elsie Barlow, President, Alberta Football Association.

## CNR Operates Longest Passenger Train Ever

HALIFAX, N.S., May — The longest passenger train ever operated in Canada — 28 Canadian National Railway passenger cars and three diesel units — last week took 964 passengers disembarking from the liner "Saturnia" to various sections across Canada.

The previous record was established on April 15 when a 24-car CNR train handled 760 passengers from the Greek liner "Olympia" here. Up to that time, the number of cars in passenger trains was limited to 15 units in winter and 18 in summer. The operation of such long trains has been made possible by the use of diesel locomotives.

## Annual Inspection of Sea and Navy League Cadets

The annual inspection of Sea and Navy League Cadets was held Wednesday, May 7th. The inspecting officer was Commander (S) W. R. Hickey, C.O., RCN Ship. Commander Hickey is the senior Reserve Naval Liaison Officer for Northern Alberta. He was accompanied by Lieut. (SB) E. Prescott, C.D., RCN Area Officer Western Area.

Prior to the arrival of the inspecting party, colors were raised and prayers said.

Among special guests invited to meet Commander Hickey were His Worship Mayor J. D. Wallace, Reeve Archibald, Cpl. Penit RCMP, Rev. Flagler, Mr. A. C. Wiberham, Mr. H. McKim, Mr. Ed. Walker and members of the local branch of the Navy League of Canada.

Following the Inspection and March Past, hands were fallen into classes. Classes and displays of theory of sighting, boatwork, ropework, rifle range and ship work and drill were held. The Cayuga Band played its usual prominent part in the entire evening's proceedings.

All hands enjoyed a free Coke and adequate insurance coverage for the time specified. Cd.

Consideration of Chauvin addition tenders on Hardware: Hill—That the J. H. Ashdown Hardware Co., Ltd. of Edmonton be granted the tender on the Hardware for the new addition at Chauvin in the amount of \$1,095.00. Cd.

Dr. Folkins advised that the Reuss Electric of Chauvin had been granted the tender on construction. Minutes of the Chauvin Centralized Board meeting were read and consideration to requests were given. The request for grass seed and paint for the improvement of school grounds was granted. The secretary was instructed to write the Centralized Board re other matters.

Mitchell—That Mr. James' request for holidays between the 3rd and 17th day of May be granted. Cd.

Ratray—That two extension tenders for the use of juniors on Tuesday, May 19th and Denwood schools be purchased. Cd.

Following the Inspection, the parents were invited to the home economics room where lunch was served. The thanks of all go to Mrs. D. McCaffrey, Mrs. E. Turner, Mrs. L. Mitchell and those who so kindly helped out.

At the completion of the inspection, the inspecting officers and special guests were invited to the Camp Wainwright Officers Mess.

Parades will continue every Tuesday. There are some Cadets who will be wearing medals for achievement, and others who will be preparing for camps and other courses.

—Wainwright Star-Chronicle.

## "GO AHEAD" GIVEN FOR ARTIFICIAL ICE

A successful and enthusiastic well-attended Glacier held on Monday in the Community Hall, Sedgewick, to discuss the feasibility of installing artificial ice, and after a discussion on costs and financing it was voted unanimously to submit a committee of ten was appointed who will interview all interested persons in the near future. Sedgewick has always been noted for its curlers, so let's all pull together and really put it on the map with artificial ice. —Sedgewick Press.

## COACHING CLINIC IN MONTANA

EAST GLACIER PARK, MONTANA. — Another "first" has been added to the Glacier National Park visitors this summer.

The first big-time Coaching Clinic in area history was announced today by Don Knutson, managing the Glacier Park Company for the Great Northern Railway.

The Clinic will be staged at the Glacier Park Lodge June 16 and 17.

Knutson announced that at least four of America's top football and basketball coaches will staff the clinic. In addition to special inside coaching tricks from the big names, the two-day Clinic will offer pointers in Viking football as well as the new rules.

College and High School coaches in Montana and surrounding states, as well as Alberta, British Columbia, and Saskatchewan, are invited to attend.

## Minutes of Divisional Board Meeting Wainwright School Division No. 32

Minutes of the regular Board meeting of the Wainwright School Div. No. 32 held at the office of the secretary-treasurer on Friday, May 2nd, 1958.

All Board members present: Allen—That the minutes of the last Board meeting be adopted as read. Cd.

Mitchell—That the necessary arrangements be made for the use of a classroom to hold an executive meeting of the W.A. on Saturday, May 10th at 2 p.m. Cd.

Mitchell—That we adjourn until 1:15 p.m. Cd.

Discussion re use of the Wainwright Division owned buses for the Red Cross Swimming campaign:

Delegation: Mrs. E. Humphries and Mrs. F. McElennon: Moved by Mr. Mitchell that two school buses be made available to the Wainwright Branch of the Canadian Red Cross from July 2nd to July 12th inclusive for the purpose of conducting a Swimming Campaign at Clear Lake, the Red Cross to provide properly qualified drivers, gas oil and adequate insurance coverage for the time specified. Cd.

Consideration of Chauvin addition tenders on Hardware: Hill—That the J. H. Ashdown Hardware Co., Ltd. of Edmonton be granted the tender on the Hardware for the new addition at Chauvin in the amount of \$1,095.00. Cd.

Dr. Folkins advised that the Reuss Electric of Chauvin had been granted the tender on construction. Minutes of the Chauvin Centralized Board meeting were read and consideration to requests were given. The request for grass seed and paint for the improvement of school grounds was granted. The secretary was instructed to write the Centralized Board re other matters.

Mitchell—That Mr. James' request for holidays between the 3rd and 17th day of May be granted. Cd.

Ratray—That two extension tenders for the use of juniors on Tuesday, May 19th and Denwood schools be purchased. Cd.

Following the Inspection, the parents were invited to the home economics room where lunch was served. The thanks of all go to Mrs. D. McCaffrey, Mrs. E. Turner, Mrs. L. Mitchell and those who so kindly helped out.

At the completion of the inspection, the inspecting officers and special guests were invited to the Camp Wainwright Officers Mess. Parades will continue every Tuesday. There are some Cadets who will be wearing medals for achievement, and others who will be preparing for camps and other courses.

—Wainwright Star-Chronicle.

## Conservatives To Choose Leader

RED DEER — Alberta Conservatives will gather from all parts of the province August 1st in Edmonton to choose a leader and organize the party for the next provincial election.

Cam Kirby, president of the Conservative Association of Alberta, said Prime Minister John Diefenbaker and Manitoba Tory Leader Duff Roblin will be asked to be guest speakers. He explained the election of the new leader will be by credited delegates including six from each of the 16 provincial constituencies and Alberta's seventeen members of parliament.

Alberta's last top leader was D. M. Duggan, former mayor of Edmonton, who retired in 1937. The conservatives have never formed a government in Alberta since it was made into a province in 1905. However Conservative candidates in the recent federal election collected more than 62 per cent of the popular vote, capturing every federal riding.

The sources of Canada's 1957 \$15.3 billion labour income were: agriculture, forestry, fishing, trapping and mining, \$1 billion; manufacturing \$4.8 billion; construction \$1.2 billion; utilities, transportation, communication, storage and trade, \$4 billion; finance and services, including government, \$3.8 billion; supplementary labour income, \$553 million.

## Report On Highway Contracts

Hon. Gordon Taylor, minister of highways, has announced the awarding of a contract covering asphaltic plant mix surface course on Highway No. 14 from east of Viking to east of Jarrow, a distance of approximately 18 miles the Bird Construction Co. of Edmonton; also a contract to the New West Construction Co. covering a distance of approximately 13 miles from east of Jarrow to east of Irma covering stabilized gravel base course; and on Highway No. 13 a contract has been awarded to Wells Construction Co. for 13 miles asphaltic plant mix surface, from Hardisty to Amisk, and a Hardisty connection, a distance of about 11½ miles. These concerns are making preparations to begin work at once.

In 1957 Canadian labour income reached a record high of \$15,348,000,000, compared to \$14,284,000,000 in 1956, \$9,641,000,000 in 1951 and \$4,920,000,000 in 1945.

THE BRUSSELS WORLD FAIR — Brussels, Belgium — The Russian and the American Pavilions are the biggest attractions at the Brussels World Fair which opened Thursday. It is too early to say which is best "looked at" by the customers. It has won high praise from all who have seen it and the exhibit it contains.

Biochemist Dr. Neil Payza and lab technologist Margaret Mahon hope to isolate adrenochrome in the human body. This is one of two research laboratories in the Psychiatric Wing of the University Hospital. Canada spends \$24,000,000 annually for military research, and only \$500,000 annually for mental health research. Saskatchewan's psychiatric research budget is higher than most, with contributions from the provincial government and the Saskatchewan Branch of the Canadian Mental Health Association, as well as federal and foundation grants.

Neil Agnew, research psychologist, tests the reaction time to a 1/1000th of a second. This is only one of a battery of tests given sound signal, of a volunteer subject. The blindfold cuts outside distractions; the signal is received through earphones; the subject reacts by tapping the telegraph key, and the clock registers the time.

Emotional factors in mental illness are not overlooked by biochemists. Research on the wards helps to chart the major role that stress plays in schizophrenia. Pleasant, uncrowded surroundings, and opportunity for handcrafts and recreation are important therapy tools. In this occupational therapy room in the University Hospital, patients may also learn home arts.

## Saskatchewan scientists study test-tube schizophrenia

"I closed my eyes and a brightly colored pattern of dots appeared. The patterns of dots gradually resolved themselves into fish-like shapes. I felt that I was at the bottom of the sea or in an aquarium among a shoal of brilliant fishes! At one moment I concluded that I was a sea anemone in this pool. . . . They brought me a Van Gogh self portrait to look at. I have never seen a picture so plastic and alive. Van Gogh gazed at me from the paper, crop headed, with hurt, mad eyes and seemed to be three dimensional. I felt that I could stroke the cloth of his coat and that he might turn round in his frame."

This flight of fancy is neither the product of a Left Bank writer or a diseased mind. It is the carefully recorded observation of a trained psychiatrist who was experiencing something like schizophrenia, the most common mental disease. Dr. Humphry Osmond, superintendent of the Saskatchewan Hospital, Weyburn, wrote these words under the influence of a drug called adrenochrome. Certain drugs such as mescaline and lysergic acid have been used

by many researchers to produce what they call a "model psychosis" providing useful information for the study of mental illness. Some scientists now believe that such a drug, produced in the human body, may be the cause of schizophrenia.

In the Psychiatric Wing of the University Hospital in Saskatoon, researchers under Dr. Abram Hoffer, director of psychiatric research in the province, are looking for this mystery drug, which they call "M" substance. They began by studying the known compounds which produce psychological disturbances. When it was found that these drugs all belong to the same chemical family, called indoles, the search was narrowed down to finding an indole which could occur in the human body. Adrenalin was suspected because stress, which is an important factor in schizophrenia, will make the adrenal glands work overtime. From adrenalin the biochemists isolated adrenochrome, which also turned out to be an indole, and produced the desired psychological effects in experiments.

In the half-dozen years Dr. Hoffer and his team have experimented with these drugs they have been able to establish two important facts: that schizophrenia body fluids differ from normal fluids, and that adrenochrome can produce psychological changes. A third major contribution will be the forthcoming publication of a method of manufacturing a stable adrenochrome substance. Biochemists have long considered that adrenochrome was inherently unstable, and therefore unsuitable for any consistent research. This problem stalled the Saskatchewan research for three or four years, until finally Dr. Ronald Heacock and Dr. Neil Payza were able to synthesize an adrenochrome which is crystalline and stable. Other research groups in Sweden, Switzerland and England, as well as in the United States and Canada are working along parallel lines—many of them collaborating with the Saskatchewan doctors in testing the drugs.

About half of all hospital beds in Canada are filled with mental patients, and schizophrenia accounts for roughly half again of our mentally ill—thus a staggering total of one quarter of the people in hospitals, any hospitals, are schizophrenics. Although some treatments have helped some patients, no proven cause or cure of schizophrenia has yet been found. Many years of research may yet prelude the final breakthrough. But if the Saskatchewan scientists, or their co-workers in other research centers, do find "M" substance, and prove it to be the villain in schizophrenia, then this dread destroyer will be controlled like diabetes and other biochemical diseases.

## Bill Drury has real oldtimer

Grand-daddy of all Whitehorse Buicks is Bill Drury's 1920 McLaughlin-Buick. Bought for about \$100 by the local car dealer in 1905, the old touring car can still get out and show these new models a thing or two. Scheduled to appear soon for the May 24th celebrations, the car spends most of its time snugly bedded down in Bill's garage. Outside in the cold and snow all year stands the Drury's other car, a 1907 Buick Century Estatewagon.

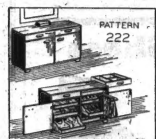

Bill insists on driving his ancient car himself because a few essential parts are missing. He says, "I know how to nurse it along."

During the roaring twenties the old touring car was used as a taxi in Atlin. After an active life bouncing back and forth between the creeks and the town, the car was put away in a garage around 1935 after the death of the owner. Like sleeping beauty, the old girl was discovered 20 years later when Mr. Drury was poking around the Spruce Creek diggings. He promptly bought the ancient automobile and started it on a second life, repaired and spoiled like all get out. Two years ago Bill rebuilt the old engine from stem to stern and it looks as if the vintage car will continue for a long time to come.

Wonder if anyone will ever dig out a 1908 Buick, complete with air ride and miracle chassis, to give it the same tender, loving care? Probably not, we'll all be flying private helicopters by then. —The Star, Whitehorse, Yukon.

## Man's wardrobe

A man's wardrobe with sliding trays for shirts, underwear and shoes; a pull-out tie rack and partitioned drawers is not difficult to

make. The secret is the constant use of your try-square to keep angles true. With this in mind just follow the dimensions and directions in pattern 222, a copy of which will be mailed for 40c.

Send order to:  
Home Workshop Patterns,  
Department P.F.I.,  
4433 West 5th Avenue,  
Vancouver, B.C.

## How To Hold FALSE TEETH More Firmly in Place

Do your false teeth annoy and embarrass by slipping, dropping or falling when you eat or talk? Just sprinkle a little FASTEXIN on your dentures. This fast-acting powder holds false teeth more firmly in place than any other. No gum, no gooey, pasty taste or feeling. Does not give cheeks "pale oof" (denture breath). Get FASTEXIN today so say drug counter.

## Public Notice

### RE: OPERATION OF SCHOOL BUSES:

Section 56 (a) sections 1 and 2 of the Vehicles and Highway Traffic Act are quoted here to acquaint the driving public with the laws respecting School Buses:

56(a) 1. When a conveyance which bears either the sign "School Bus" or "School Van" has stopped to receive or discharge passengers no driver of a vehicle shall overtake and pass such conveyance until all persons who are about to enter or leave the same are safely clear of the path of the vehicle.

2. When a conveyance which bears the sign "School Bus" or "School Van" has stopped to receive or discharge passengers no driver of a vehicle approaching from the opposite direction shall pass such conveyance at a speed greater than twenty five miles per hour.

When a school bus has stopped to discharge children, the driver approaching the bus from behind must stop and not proceed until it is safe to do so.

Likewise the driver approaching from the front must reduce his speed at the required limit — more if necessary.

REMEMBER! the child that you are striving to protect might be your own.

WAINWRIGHT SCHOOL DIVISIONAL BOARD.

SAFETY FIRST, LAST AND ALWAYS

16-30c

### FROM FERTILIZED FORAGE

**\$15 MORE  
PER TON!...**

Protein is essential for meat and milk production. A ton of unfertilized grass hay contains approximately 100 lbs. of protein. Application of high analysis Elephant Brand Fertilizer can double this figure to give you 200 lbs. of protein in every ton! Most protein feed supplements contain 32 per cent protein, and cost up to five cents per pound. On this basis, the increased protein content resulting from the use of Elephant Brand adds \$15 to the value of every ton of forage... plus extra profits from faster growth and more abundant yields!

See your Elephant Brand Agent for these high analysis products:

AMMONIUM PHOSPHATE	11-48-0	AMMONIUM SULPHATE	21-0-0
AMMONIUM PHOSPHATE-GUANO	18-20-0	NITRAPHYL (Ammonium Nitrate)	31-5-0
AMMONIUM NITRATE-PHOSPHATE	23-23-0	COMPLETE FERTILIZER	18-32-10
AMMONIUM NITRATE-PHOSPHATE	27-14-0	ANHYDROUS AMMONIA (NH <sub>3</sub> )	82-0-0
